Education

Bachelor of Computer Science Sept. 2026 – Present
Université Laval – Software Engineering and Information Security Concentration *Québec, QC, Canada*

Bachelor of Computer Science Aug. 2025 – May 2026
Université du Québec à Rimouski – Lévis Campus *Lévis, QC, Canada*

- Cumulative GPA: 3.53 / 4.30 (21 university credits).
- Completed two full-time semesters before transferring to Université Laval.
- Relevant coursework: Object-Oriented Programming I and II, Computer Architecture, Web Technologies, Databases, Software Engineering, Networking, Linear Algebra, and Differential Calculus.

Vocational Diploma in Computer Support Jan. 2023 – May 2024
Centre de formation professionnelle Marie-Rollet *Québec, QC, Canada*

- Training in hardware and software troubleshooting, computer networking, and technical support.
- Internship focused on providing IT support to end users.

Experience

IT Support Analyst – Level 1 June 2026 – Present
Vidéotron *Québec, QC*

- Provide first-level technical support by phone using remote support tools and ticketing systems.
- Diagnose and resolve hardware, software, network, and user account issues.
- Provide on-site IT operations and support during events at Centre Vidéotron.
- Deliver bilingual customer support in French and English.
- Accurately document support activities and comply with established service levels.

Full-Stack Developer (Freelance) June 2025 – Present
DripCodeStudio *Québec, QC*

- Design and develop end-to-end web applications, including SaaS platforms, dashboards, and e-commerce solutions.
- Build modern, responsive interfaces with React and Tailwind CSS, focusing on user experience and performance.
- Develop REST APIs with Node.js and Express, integrated with PostgreSQL and MongoDB.
- Manage the full development lifecycle: requirements analysis, design, development, deployment, and continuous improvement.
- Contribute to open-source projects and tools for the developer community.

Level 1 IT Support Agent (Contract) March 2024 – May 2024
Ministère de la Cybersécurité et du Numérique (MCN) *Québec, QC*

- Provided remote IT support to government employees, resolving hardware, software, and connectivity issues.
- Analyzed, categorized, and managed support requests in ServiceNow, ensuring follow-up and escalation when required.
- Documented support activities and solutions to contribute to the internal knowledge base.

IT Technician (Internship) Sept. 2023 – Oct. 2023
OPEQ – Ordinateurs pour les écoles du Québec *Québec, QC*

- Diagnosed used computers for refurbishment and redistribution.
- Installed and configured Windows and Linux operating systems.
- Performed repairs and replaced hardware components, including RAM, hard drives, screens, and batteries.

Projects

Prodigo ERP | *Java 26, Spring Boot 4, PostgreSQL, Spring Security, JPA, Flyway*

- Design and develop the backend of a multi-tenant SaaS ERP ecosystem, centralizing business logic and exposing an OpenAPI-documented REST API.
- Implement a modular monolithic architecture based on hexagonal principles, separating the domain, application, and adapter layers.
- Develop JWT authentication with refresh token rotation and role-based access control (RBAC).
- Implement multi-tenant management, organization-level data isolation, and ERP module subscriptions.
- Structure PostgreSQL database management with Spring Data JPA and Flyway, and implement tests using JUnit and Testcontainers.

AcadXP | *Next.js, React, TypeScript, Tailwind CSS, Zustand, TanStack Query, Radix UI, Zod* 2025

- Develop a gamified academic platform featuring a progression system based on experience points, levels, achievements, and skill badges.
- Build an interactive dashboard displaying learning habits, goal completion, and productivity trends.
- Integrate course management, AI-assisted challenge generation, and personalized quizzes.
- Implement community features, including achievement sharing, leaderboards, and smart notifications.

Dev Quotes | *React, Node.js, MongoDB, JWT, Tailwind CSS*

- Build a minimalist social network where developers can share and save their favorite quotes.
- Develop a REST API with JWT authentication and a NoSQL database.

CineVerse | *React, Tailwind CSS, TMDB API*

- Develop a movie discovery platform using an external API to search and explore movie content.
- Add search and favorites management features within a responsive interface.

Technical Skills

Languages: Java, JavaScript, TypeScript, Python, C#, SQL, HTML5, CSS3
Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Node.js, Express.js, .NET
Frontend: React.js, Next.js, Tailwind CSS, Zustand, TanStack Query
Databases: PostgreSQL, MySQL, MongoDB, Firebase Firestore, SQLite, Supabase
ORM and Mapping: Hibernate, Prisma, Mongoose, Entity Framework, MapStruct
Testing and Tools: JUnit 5, Testcontainers, Postman, Maven, Git, GitHub, GitLab, VS Code, IntelliJ IDEA, Visual Studio
Cloud and DevOps: AWS, Firebase, Vercel, Docker, GitHub Actions
Other: JWT, REST APIs, OpenAPI, Flyway, Lombok

Certifications and Achievements

AWS AI & ML Scholars – 2026 Challenge 2026

Amazon Web Services (AWS)

- Completed the AWS AI Practitioner self-paced learning path, consisting of approximately 10 to 15 hours of training.
- Completed hands-on labs covering generative AI applications with Amazon PartyRock and foundation models with Amazon Bedrock.

Postman API Fundamentals Student Expert 2025

Postman

- Gained foundational API skills, including HTTP requests, scripts, variables, and code generation with Postman.
- Earned the Student Expert title and digital badge upon completing the learning path.
